

West-Japan Flood Disaster Relief Campaign

*Positive Net - supporting
people in need across Japan*

Positive Net

The network of good-willed proactive people respecting individuality and bringing out the best of one another.

YMCA changes the energy of people's mutual bond into a hope in the community.

upper: Hiroshima City (July 7th)
lower: Supporting affected child (Kumamoto Earthquake)

We accept your donation from July 14th to October 31st

Unprecedented heavy rainfall in West-Japan brought devastating disaster such as floods and landslides in wide area with death toll of more than 200 and 60 people missing as of July 12th. Over 2,000 people are still left in affected areas without logistical access to necessities of life.

With the summer high-heat and long-time hardships, affected people are forced to live in very severe condition.

YMCA will support affected people and communities with relief work and long-term rehabilitation programs in which YMCA's network, knowledge and skill are effectively utilized.

As YMCAs in Japan, we will collectively work together to support affected communities in Hiroshima and Okayama. Your generous donation with good will to support our work is much appreciated.
